After consultation with our insurer, it was decided that where individual or small groups of children need to move between campuses they can be accompanied by an SNA in consultation with a teacher/principal.

If it's a one off, the teacher can decide (eg. receive an award, catch up to the class).

If this is a regular timetabled event then an appropriate risk assessment should be carried out by the class teacher and the decision recorded on a shared document with management. This would

involve taking the ability and needs of the student(s), and amount of students into account in making a decision. Sna's should monitor this and report back to a teacher if there is an issue en route.

Following the review by the Board of management it was decided that a template be used to record all aspects of correspondence around individual CP issues. The new guidelines in the next year will dictate what is in this template.

Important Note: It should be noted that risk in the context of this risk assessment is the risk of "harm" as defined in the Children First Act 2015 and not general health and safety risk. The definition of harm is set out in Chapter 4 of the *Child Protection Procedures for Primary and Post-Primary Schools (revised 2023)*

In undertaking this risk assessment, the board of management has endeavoured to identify as far as possible the risks of harm that are relevant to this school and to ensure that adequate procedures are in place to manage all risks identified. While it is not possible to foresee and remove all risk of harm, the school has in place the procedures listed in this risk assessment to manage and reduce risk to the greatest possible extent.

This policy was ratified by the Board of Management of Trinity P.S. Tuam.
